STRIKE AGAINST NEGROES.

Race and Labor Trouble on the Houston and Texas Central Railway.

CINCINNATI, Oct. 6.—A special to The Tribune from Houston, Tex., says: The Houston and Texas Central railway has employed negro switchmen in the yards for several years. About two weeks ago a demand was made for their removal, the places to be filled by whites. This demand was refused, and the firemen all struck. Grand Master Wilkinson has been sent for and has been in the city two days, trying to adjust matters amicably, but without avail, as the officials of the central are firm in their position, arguing that if the colored men are good enough to sit in the councils of the Knights of Labor, they should be good enough to work with. Grand Master Wilkinson has wired to all members of the executive council of the Railway Federation which recently met in Terre Haute, to come to Houston at once and the impression is general that a strike is imminent. The Southern Pacific may also be involved, as both roads are in the Huntington system.

Heavy Shipments of Barley.

OSWEGO, N. Y., Oct. 6.—The harbor is full of barley-laden vessels from Canada, about 100,000 bushels being afloat. The total importation of barley at this port for the past thirty-five days has been 1,000,000 bushels. Twenty-seven thousand dollars in duties were collected at the customs house Saturday night. Every available craft was pressed into the service, to get the grain here in time. The last ones to leave Canada were instructed to return to Canada with their cargoes if they could not make Oswego by midnight Sunday night.

Double Murder for Three Dollars.

BELLEVILLE, Ill., Oct. 6.—While out hunting yesterday afternoon, seven miles east of this city, on the Masontown road, Lorenz Karine and Lorenz Meier, 40, with their three children, were shot and killed by a man named John Smith, who was sleeping in a rooming house at the time. The woman revived sufficiently to tell a terrible story of the crime. She said that they were attacked while sleeping by an unknown man, who cut their throats and robbed them of all the money they had—\$3. Both father and daughter died shortly after being discovered.

Standing by Their Pastor.

PITTSBURGH, Oct. 6.—A special to The Times from Pottsville, Pa., says: Last night the Plymouth Congregational church at a members' meeting, attended by over 500 of the congregation, unanimously refused to accept the resignation of the Rev. Peter Roberts, their pastor, who was convicted on Tuesday of a breach of promise preferred by Miss Annie H. Hale, and to whom the jury awarded \$400 damages. Very few of the members were absent from the church.

ST. LOUIS, Oct. 6.—The executive committee of the Southwestern Railway and Steamship association held two long sessions Saturday. No one could be found on whom all the members could agree for chairman and another meeting be held in Chicago to-morrow.

JOHNSTONE, THE MIND REA

Plays Base Ball Blindfolded According to Mental Direction.

CHICAGO, Oct. 6.—Paul Alexander Johnstone, the mind reader, whom a professor in the State University of Michigan claimed to have exposed, was to have played base ball blindfolded at the National League grounds Saturday afternoon, but rain interfered, and the game was called in consequence.

Johnstone gave a private exhibition before several members of the press and a large number of spectators, and seemed to fully demonstrate that he could, without seeing, play the points of the game as well as by another person. Johnstone's head was thoroughly examined before and immediately after the close, and there was no evidence of any fraud in connection with it. In addition to the head, his eyes were tightly bandaged.

Elmer Foster, the center-fielder of the Chicago National League club, in speaking of the exhibition said: "I was present and saw Johnstone, while blindfolded, bat, catch and run bases, controlled by the will of Captain Anson and Mr. Wilcox. His head was carefully examined both before and after the exhibition, while on the field, and there was no possible chance of any deception. It was the most wonderful performance I ever witnessed."

Johnstone says, in reference to the Michigan university doctors offer of \$500 if Johnstone will read the doctor's mind, that he Johnstone is willing to undergo any series of tests providing some responsible paper will appoint a committee of ten persons whom he can work through.

THE FIRE AT COLON.

Further Particulars of the Great Disaster Reported to Washington.

WASHINGTON, Oct. 6.—The United States consul at Colon in a report to the department of state dated Sept. 23, in regard to the recent fire, says that it commenced about 12 o'clock on the night of the 23d, and kept on until the business part of the town was totally destroyed. It is estimated that more than 200 business houses were destroyed with all their contents and goods, probably worth \$2,500,000. The houses were all frame buildings of a cheap standard.

Owing to the very large quantity of alcohol and coal oil in stock, the fire was at once beyond control. There was little or no insurance on the stock. Out of this loss the Panama railroad lost \$30,000, a number of cars loaded and unloaded being destroyed on the track, as well as the offices of the company.

The consul says the fire was the work of incendiaries, doubtless due to the dissatisfaction of the railway employees and the probable reduction of the force. Rumors were rife that the American part of the town would be fired in consequence of which the guards were doubled, the quarters patrolled and a few shots fired.

The United States ship Kearsarge left on the 23d for Greytown. The consul says that owing to the great loss he deemed it his duty to inform the prefect, who lost everything, that he would shelter and board such Americans as would call upon him for aid. The Kearsarge, when her officers learned of the fire, returned to Colon.

PRESIDENT YOUNG TALKS.

What He Has to Say on the Past Base Ball Season.

WASHINGTON, Oct. 6.—While the season which ended Saturday has not been a financial success, said President Young, of the National League, to a reporter, "still the finish finds our organization a hundred per cent better off than we expected about the first of July, 1890."

"All our clubs are intact, and there is not a penny owing to a man who contracted to do business with the National League, and consequently, we have experienced no difficulty in securing all the talent we desire for the year 1891."

"One thing can be relied upon, and that is, despite stories of deals, amalgamations and compromises, the League will be found at the old stands next season, and doing business in its accustomed channels."

Telegraph Operators Get an Increase.

TERRE HAUTE, Ind., Oct. 6.—It is learned on reliable authority that as a result of the conference between President Mackay and the men on his road, assistant telegraph operators will be placed at several stations, which will make the work lighter, and a general increase of from \$10 to \$15 a month was granted the operators, while the office clerks will be given a substantial increase as well. No operator will be paid less than \$40 per month. The increase places the men on an equal standing with the best paid men on any road. The Terre Haute wage question will be adjusted to-day.

Bignami to Be Tried for Murder.

BUFFALO, Oct. 6.—The trial of Arthur Day, the bigamist of Rochester, who is alleged to have sought to hide his crime by pushing his first wife over the cliff at Niagara Falls, will come up at the Fall sessions to-day, and promises to attract about as much attention as the famous Birchall case. Mrs. Charles H. Quigley is the most important witness against the defendant.

Held Up a Burglar.

CINCINNATI, Oct. 6.—The residence of Mrs. Gray, on West Fourth street near Russell, in Covington, was entered by a burglar at 2 a. m. A young lady, who is visiting Mrs. Gray, was awakened by the marauder and procuring a revolver made an investigation. The police were attracted to the scene, and the intruder was taken to the station house.

LONDON GAS MEN.

Three Thousand of them Assemble at Woolwich.

LOCKOUT OF UNION FEARED.

They Adopt Resolutions Deprecating the Action of the Company in Erecting Barracks and Calling on the Military.

LONDON, Oct. 6.—Three thousand gas workers met at Woolwich yesterday and formally declared that the suspicious of the Gas-light and Coke company that they intended to strike were absolutely unfounded. Resolutions were adopted deprecating the action of the company in erecting barracks for contemplated new employees, and in securing the presence of the military, in anticipation of a strike. The truth is that the men are afraid that these preparations are for a different purpose than is announced. They are apprehensive that an attempt is about to be made to force all union men to leave the company's employ, and thus break up the organization.

The observer, in an article on the McKinley tariff, expresses the hope and the belief that the measure will by its stimulus to American manufactures, attract large numbers of the unemployed workmen from England to America, thus affording partial relief to the labor market here.

The Pope Perplexed.

LONDON, Oct. 6.—Advices from Rome state that the British ministry through its friends in that city is bringing all the influence possible to bear upon the pontiff against the bestowal of a cardinal's hat upon Archbishop Walsh, of Ireland. The effect of these appeals is not known, but it is said that the pope is deeply perplexed, as between the British government and the Irish people.

It is claimed, on behalf of the British government, that the elevation of the archbishop at this time would be an expression of approval on the part of Rome of the prelate's course in supporting the National League agitation and the plan of campaign, which have heretofore been condemned by the holy see. It is rumored in Rome that the opponents of Archbishop Walsh have obtained an assurance that he will not be promoted for some time to come, if ever.

Two More Letters from Jack the Ripper.

LONDON, Oct. 6.—The police have received two more letters signed by Jack the Ripper, and announcing the intention of that bloodthirsty unknown to commit fresh murders and mutilations. The police believe that the letters are genuine. Vigilance committees are being organized in the Whitechapel district, in expectation of a renewal of the Ripper's depredations. The police force has also been increased.

Revolution Apprehended in Hayti.

LONDON, Oct. 6.—A despatch from Kingston, Jamaica, represents that another revolution is apprehended in Hayti; that the financial condition of the republic is unsatisfactory, and that the exports show an alarming decrease of trade, owing partly to the decrease of production during the recent warfare. Coolies are to be imported to cultivate neglected plantations.

Expelling the Jews from Russia.

LONDON, Oct. 6.—Several wealthy Jewish merchants of Odessa have been ordered by the authorities to settle up their business within four weeks and leave Russia for good. No citizen is made against them except that they are Jews. The trade of Odessa is largely in Jewish hands, as is indeed that of most Russian cities.

Labor Troubles in Australia.

LONDON, Oct. 6.—A dispatch from Melbourne, Australia, represents that the strike there is still in progress, and no settlement has been arrived at, though the number of non-union laborers is increasing. The strikers telegraph asking British workmen not to believe vague rumors that funds are required to insure success.

People in Ireland Starving.

LONDON, Oct. 6.—Several deaths are reported from the Island of Achill on the west coast of Ireland, owing to a lack of proper food and indirectly to the failure of the potato crop. The condition of the inhabitants on this and other islands is being investigated by order of the government, but no relief has so far been extended.

TRAIN ROBBERS CAPTURED.

The Two Robbers of the Missouri Pacific Train Locked Up.

LEXINGTON, Mo., Oct. 6.—The Ottentown train robbers were captured yesterday at Elmira, near here, and are now in jail in this city. Detective Thomas Farlow has been quietly working on the case since Aug. 18, when a Missouri Pacific train was held up by masked men in Robbers' Cut, near Ottentown. Last evening, in company with deputies, he proceeded to the house of Horatio S. Hines, a farmer near Elmira, and arrested him and his jail, Frank Hoffman, a country sport and all-round tough.

The men were securely handcuffed and brought to this place. It was at first said that five men were engaged in the robbery, but it now seems that Hines and Hoffman, unaided, held up the train. While one covered the engine with his revolver the other forced Express Agent Avery to surrender to him two packages supposed to contain money, but subsequent developments showed that these amateur bandits had made a water haul as the packages contained less than \$100 worth of jewelry and railway vouchers.

A BRIDE SUICIDES.

A Young Girl Takes Her Own Life a Few Hours After Her Wedding.

REDWOOD, Cal., Oct. 6.—A highly sensational suicide occurred here Sunday morning. Saturday night Louis Eslinger, aged 22, was married to George Wehlin, at the residence of her uncle, C. Groner. At 4 o'clock Sunday morning she and her husband went to their new residence. She refused to allow him to enter her room and he was obliged to return to Mr. Groner's house. At 6 o'clock he returned to his house and found his wife dead in bed. In the bed were a few grains of a crystal substance, the nature of which has not yet been ascertained. She left no word of explanation. Miss Eslinger had been in Redwood for six weeks and had been engaged to Wehlin only four weeks. It is surmised that a former lover in Portland, Ore., had proved false to her.

Gold Hill, as the new camp is called, is located twenty miles east of Saratoga in the Medicine Bow range of mountains. Up to this time fifteen distinct and separate gold bearing quartz leads have been discovered and located.

Had No Use for a Bank.

ST. PAUL, Minn., Oct. 6.—Steve Zenga, a miner, living on the Missouri river near Chamberlain, S. Dak., discovered yesterday that he had lost a fortune in a peculiar manner. It had been his custom for several years past to secure his surplus cash in a coffer under his house instead of placing it in a bank. The pile had gradually accumulated until the total reached over \$30,000, all in greenbacks in denominations of from \$1 to \$500. On visiting his secret hoard yesterday he found that rats and mice burrowed in and chewed up the bills until they were entirely worthless.

BELLEFONTAINE, O., Oct. 6.—Mrs. Lena Robinson, who is visiting her father, Mr. Ben Green, of this city, displayed rare presence of mind and energy Saturday evening, thereby escaping terrible injury and perhaps death itself.

As one of the butchers of this city was driving a rather wild steer along Mad River, it ran into Mr. Green's yard and started for the open door of the front room, in which Mrs. Robinson was sitting by a window. When she saw the animal, which appeared greatly infuriated, start for the door, she rose to close it.

The butcher called to her, "For God's sake, run for your life." Instead of trying to run from the room, however, she seized a chair, and just as the animal put its head through the door she struck it a blow across the eyes that stunned it and made it retreat, when the brave woman quickly closed the door and then fastened it. It would have been almost impossible for her to have escaped from the room, for the only other door from the room opened into it and was so situated that the infuriated animal would have been upon her before she could have passed through it.

Deposited by the Probate Court, James E. Tanner and Stephen O. Young sent to the Asylum.

The very unfortunate case of insanity were disposed of by the probate court Saturday and today. James E. Tanner, who has successfully conducted a machinery store opposite the court house on Center street since last February, was taken to the Columbus insane asylum this forenoon by Sheriff Kelly. Tanner's case dates from about a week back, and has been of a deplorable nature. He had turned against his own friends and especially his family, and labors under the belief that they intend to kill him. For this reason he could not be induced to go near his home, claiming it to be possessed with ghosts and serpents and all sorts of startling objects. He was not violent, however, and was perfectly harmless. The cause of his insanity is stated by the examining physicians to be from opium, which he took for months, and also nervous prostration. The other unfortunate case is that of Rev. Stephen O. Young, a Methodist Episcopal minister, aged 39 years, and the father of a family. He preached at Belle Center, O., and resigned last February, since which time he has resided in Pleasant township, and is a son-in-law of George Lawrence. Rev. Young's symptoms are of a melancholy morose character, with a tendency to suicide. He labors under the hallucination that his resignation from the ministry was a falsehood and misrepresentation. He imagines that he is called upon by the Lord to kill his wife and children, and has had a revolver concealed for that purpose. His insanity is said to be the result of nervous prostration, caused by study and overwork. He suffered a slight attack of insanity when he was 27 years old. Young will be taken to the Columbus asylum as soon as the papers admitting him are received.

The Model Comedy Company.

This company Saturday night closed one of the most successful week's business that has ever been done at Music Hall. This, too, notwithstanding unfavorable weather. A crowded house greeted every night's performance, and the members of the company have all received every night's praise for their excellent acting. Their repertoire has been replete with standard plays, most acceptably interpreted. Mr. and Mrs. Robert Wayne, Miss Louis, Messrs. Howard, Wall, the proprietor, and Joseph Kelly, have all proven themselves versatile artists of ability, and Miss Louis is especially clever, and better than half of the comedians that are being starred. Manager Parent is to be congratulated on securing so good a company and it is hoped that he will be successful in getting the company at a future date.

The appearance of Messrs. Her, Burke and Randall in conjunction with this company's entertainment here two nights was a happy hit. It gave Marion audiences an opportunity to see what the boys were capable of doing in an amusement line. Their appearance Saturday night was another gratifying success. In addition to their talent in fun act, Her and Burke gave a plantation song and dance, and also a play. The success they received were testimony of the success they achieved, being greeted with deafening applause.

The Union's Grievance.

The Marion Star is indiscreet enough to observe "Gamblers and gambling devices have met with a cool reception as usual with the Agricultural Society, and in the city too." It is said that in the neighborhood of \$500 could have been raised in a matter of minutes on the fair grounds, but it was refused. The fair grounds have also been important to allow no cock-fight and other games down town, but all such devices will be stopped if found running. Marion would have the reputation of Buoyers and Upper Sandusky. The above, so far as it relates to Upper Sandusky is a lie of the most flagrant character. There has been so much of this sort going on for the past few years that generally they have been passed unnoticed. But in this case the lie committed is so great that a denial is no more than proper. There was not a gambling device of any kind on the grounds at the recent fair, as any one who was there can truthfully testify. The society, however, had many offers of such, but shunned them all. The star, aware of its error, to correct its misstatement.

The above is taken from the Upper Sandusky Union. The star is sorry to have ascribed that paper, but what was said was obtained from a man who had made it a special duty to observe these things. We submit to the Union's correction in regard to gambling at the Wyandot fair, but would like to explain as to what went on "down town." We are not responsible for Upper Sandusky's bad reputation.
